

February 6, 2015

IMPORTANT NOTICE

In light of the most recent external cyber-attack against Anthem, we would like to remind you of actions you can take now to reduce your risk of credit fraud and unauthorized access to your personal data.

1. Take advantage of Anthem's credit monitoring/identity protection services as soon as it becomes available.
2. Consider signing up for a credit freeze. A credit freeze is a consumer right provided by Indiana law to block an identity thief from opening a new account or obtaining credit in your name. A security freeze is not a temporary feature or easy to undo. Therefore, if you intend to access credit within the next year (ie: car loan, mortgage, re-finance), you should not freeze your credit. Follow this link for more information on how to freeze and unfreeze your credit: <http://www.in.gov/attorneygeneral/2411.htm>
3. Create strong passwords. An ideal password is long and has letters, punctuation, symbols and numbers.
 - a. Wherever possible use eight characters or more.
 - b. Don't use the same password for everything.
 - c. Change your passwords often.
4. Remain vigilant! Check your statements provided by vendors of services you use. Review your credit reports each year. Follow this link for access to your free credit report: <https://www.annualcreditreport.com/index.action>

As always, if you have any questions regarding this issue or any other financial affairs, please feel free to contact our office at (260) 436-2051.

Sincerely,

Dickmeyer Boyce Financial Management, Inc.
